

SKYWORKS®
New Product Announcement

| New High-Power Bluetooth® Power Amplifier for Mobile Applications

SKY85018-11

Skyworks has introduced a new category of high-power Bluetooth® power amplifier (PA) solutions for mobile applications targeting Wi-Fi enabled smartphones, tablets and other portable devices. The [SKY85018-11](#) is a highly integrated device that is particularly suited for improving Bluetooth® connectivity ranges, which are required for music streaming. Multiple output power ranges and a bypass mode ensure that [SKY85018-11](#) is extremely reliable for high performance devices, providing a premium audio experience.

Features include:

- Enables smartphone OEMs to enhance *Bluetooth® connectivity range*
- *Provides a highly integrated solution* in a small footprint (1.5 x 1.5 mm package)
- *Can run directly off battery*, removing the need for an LDO voltage regulator
- Features *high output power* of 23 dBm for basic data rates and 14 dBm for enhanced data rates

The data sheet can be found at:
